MEMORANDUM FOR: Deputy Director of Central Intelligence

VIA: Director, Intelligence Community Staff

FROM:

Acting Chairman

SUBJECT: Revision of DCID 1/7 (U)

1. Action Requested: Your concurrence in steps to revise DCID 1/7. (U)

2. Discussion: DCID 1/7 specifies Community security controls and markings governing the use and dissemination of intelligence. The DCI Security Committee began a review and revision of this directive in the fall of 1978. Early agreement was reached that the DCID should be more specific in stating conditions for use of the "Warning Notice," "ORCON," "NO CONTRACT," and "Proprietary Information" controls. The revised draft reflects this. The Committee deliberated at length on the NOFORN control. An agreed revision was circulated to the NFIB with DCI approval in December 1979-January 1980. interpreted by the Office of the Secretary of Defense to be potentially troublesome from an administrative authority ("turf") point of view. Time healed this concern, and OSD recently concurred in this change provided that NOFORN be used for policy reasons upon specific SIO determination. Collection Tasking agreed. The change is consistent with views expressed by representatives of CIA, NSA and other Community agencies during earlier discussions on the NOFORN issue.
